NAME OF ORGANIZATION

A good cause. And a good coffee.

Hello. Please consider purchasing some of these quality coffees, teas & cocoas to help us raise funds. You could also give them as gifts, or as a “thank you” to a special person.

Pistol & BURNES creates its blends in a unique way. Other roasters take beans from different origins, throw them together and roast them en masse. Some delicate beans are burnt. Some hardier beans end up barely roasted at all. Pistol & BURNES slowly roasts each type of bean separately, to its ideal temperature, so that it can deliver its maximum taste potential. Finally, the beans are blended together, packaged and delivered fresh to your door.
